

Hello,

I pay for my xm service and I want any attempt by the NAB to limit my service rejected. I'm on the road every day and my xm is the greatest thing to come along. I'm so angry I can't put it in words. What right do they have to limit my service. I'm recalling the day when I bought a directTV dish and then got my local channels taken away.

Please don't limit my xm service. I love the many choices they offer.
